We at Beta keep investing in Italian-made production and are proud to

THE NEW WORKSHOP EQUIPMENT RANGE, RSC50

Based on the expertise acquired with the two existing workshop equipment ranges, RSC55 and C45PRO, which allowed us to listen to and fully understand professional users' requirements, the project for the new range, RSC50, relies on the following pivotal concepts:

• **QUALITY**

Our acclaimed care in choosing the materials, painstaking attention for detail and, last but not least, the captivating design make the RSC50 a one-of-a-kind workshop equipment range.

• **FUNCTIONALITY AND STURDINESS**

The 63-cm-deep worktop means having a large, convenient, functional work surface available. It can be fitted with a vice, thereby allowing heavy-duty jobs to be carried out.

• **EFFICIENCY**

Simple, quick installation, based on the optimized production of the various parts of the range.

• **FLEXIBILITY**

Each workshop equipment combination can be extended or modified at any time as required.

• **COMPATIBILITY**

The drawers in Beta's standard dimensions (588x367 mm) can accommodate the numerous tool modules, which are available in both soft and hard versions, made from EVA and ABS respectively.

The new workshop equipment range, RSC50, comprises preassembled combinations, developed by Beta for professionals; alternatively, you can design your workplace on your own, choosing from many under-bench modules, wall-mounted cabinets and furnishing accessories. The customized colours of the drawer handles and lights under the worktops and wall-mounted cabinets result in unique workshop equipment, thus making the RSC50 an ideal choice for those who prioritize working in a functional, efficient environment.

050001045 **RSC50 I**
~~£ 20,910.00~~ **£ 10,460.00**

Workshop equipment combination RSC50

Combination comprising:

- 1 2.240 mm worktop (RSC50 PG/3-2,2MT)
- 1 1.495 mm worktop (RSC50 PG/2-1,5MT)
- 1 fixed module with 7 drawers (RSC50 M7)
- 1 mobile roller cab with 7 drawers (RSC50 C7)
- 1 fixed service module with 2 drawers (RSC50 MS-2C)
- 1 self-supporting complete corner (RSC50 AC-G)

- 1 fixed module with 5 drawers (RSC50 M5)
- 1 fixed two-door module (RSC50 MA)
- 5 wall-mounted cabinets (RSC50 PM)
- 5 upper perforated tool panels (RSC50 PFS)
- 5 lower perforated tool panels (RSC50 PFI)
- 5 pairs of right/left uprights (RSC50 P/2MDX-SX)
- 2 single-door cabinets (RSC50 A1)

RSC24AXLP/7

Mobile roller cab with 7 drawers, with wood worktop and anti-tilt system, long model

Long model with 7 fully removable drawers (882x367 mm), with ball bearing slides:

- 5 drawers, 70 mm high
- 1 drawer, 140 mm high
- 1 drawer, 210 mm high
- Multi-ply wood worktop with holes for a vice 1599F/100 or 1599GI/100 (to be ordered separately)
- Sturdy nylon front, with built-in label holder
- Drawer bases protected by foamed rubber mats
- 4 castors, Ø 125 mm: 2 fixed and 2 steering (one with brake)
- Front centralized safety lock
- Static load capacity: 1.100 kg
- Built-in side bottle holder (can be applied on both sides)
- Built-in paper roll holder
- Each drawer can accommodate up to 6 EVA foam or ABS thermoformed trays

Beta N Description

- 111E 1 Adjustable wrench 250 mm
- 332/2 1 Mini pipe cutter for copper and light alloy pipes Ø 3÷28 mm
- 334 1 Pipe cutter for copper and light alloy pipes Ø 3÷30 mm
- 342 1 Ratchet-type shears for plastic pipes Ø 0÷42 mm
- 345SB2 1 Deburrer with fixed blade 140 mm
- 376 2 Pipe wrenches, Swedish pattern, 90° flat jaws 320-410 mm
- 1048N 2 Slip joint pliers, slip-proof PVC coated handles 175-250 mm
- 1128BMX 1 Electrician's scissors, straight blades
- 1150GBM 1 Heavy duty combination pliers, bi-material handles, industrial finish = 180 mm
- 1201E 4 Screwdriver for slotted head screws ● 3x75-4x100-5,5x150-8x150 mm
- 1202E 2 Screwdriver for cross head Phillips® screws ● PH1x80-PH2x100
- 1370 1 Engineer's hammer 500 g
- 1690F 1 Folding ruler made of fibreglass 2 m
- 1692/5 1 Measuring tape 5 m
- 1696 1 Spirit level, made of aluminium 200 mm
- 1719BMA...M 1 Second-cut half-round files 200 mm
- 1719BM/RL 1 Flat rasp file, plastic handle 200 mm
- 1725 1 Hacksaw frame, aluminium handle

// 666 ZERO-RESET

THE NEW TORQUE WRENCH THAT DOES NOT REQUIRE RELEASING TENSION.

Even if tension is not released, the number of cycles, durability and tightening accuracy as required by reference standards are guaranteed. In order to confirm these parameters, Beta Utensili's Research & Development Department performed numerous durability tests at the in-house laboratories as at hundreds of end users'. This result has been obtained through:

- the use of the best-performing currently available materials;
- special heat treatments on interior parts.

Based on the new parts, the wrench no longer has to be reset to the minimum value at the end of the operation cycle.

100% MADE IN ITALY

The Zero-Reset torque wrench was entirely designed and developed in-house and is manufactured at Beta Utensili's factories in Italy, using 100% Italian-made parts.

Click-type torque wrench for right-hand tightening

// 666 // 666 LBF.FT

Scale in lbf.ft

The wrench that does not require releasing tension after use. 100% Italian-made, it is ideal for controlled tightening of screws/bolts. The innovative Zero-Reset torque wrench is fitted with a reversible ratchet for right-hand tightening; torque accuracy: $\pm 3\%$. Reaching the set torque is indicated by a mechanical click that can be heard and touched.

ZERO-RESET TECHNOLOGY: Based on higher-performance materials and improved heat treatment of both the spring and the component parts of the adjustment system, the wrench no longer requires releasing tension after use. **EASY SETTINGS:** The graduated scale allows minimum interval fractions to be set up (in tenths of Nm/lbf.ft). **IMPROVED VISIBILITY:** Double graduation for clearer, simpler torque visibility.

WARRANTY

ROBUR's permanent magnetic lifters stand out as compact, sturdy, reliable machines; they are widely used in factories, warehouses, harbour quays and transportation facilities. Designed in compliance with EN13155, this equipment is suitable for lifting and handling magnetic iron materials, including dies, sheet metal, pipes, fittings, beams and bars.

The permanent magnet is made from a Neodymium-Iron-Boron alloy, which has an extremely high attractive force and is defined as "super magnetic". Since magnetic lifters require no voltage, they can also be used in places where no power connection is available. One operator can easily lift, transport and release the load through the operating lever: when the lever is moved into the ON position, a spring mechanism will lock it, keeping the magnet active and preventing accidental release.

Work trousers, multipocket style, with detachable flying pockets,

T/C canvas, 260 g/m², grey

Knee pad pockets and leg bottoms reinforced in polyester 300D, tearproof crotch and stretch fabric inserts in inside legs and lumbar region for easier movements

CONVENIENCE Trousers designed to provide unique convenience, based on the 14 pockets. The accurate details, detachable pockets at waist and ruler pockets ensure unique convenience, even for the most demanding workers.

STRENGTH The polyester and cotton fabric is synonymous with hard-wearing trousers. The addition of anti-abrasion inserts on the knees and leg bottoms translates into further increased strength.

COMFORT The addition of stretch inserts in inside legs and on the back results in remarkably comfortable trousers.

Cargo work trousers,

100% cotton, 240 g/m², stretch waistband on sides and large side pockets with reflex inserts, grey with fluorescent green detail slim fit

Beta's "cargo" work trousers are the name for a modern, simple solution, for those who prioritize comfort, without compromising style.

CLASSIC, THOUGH FASHIONABLE LOOK Simple, essential lines and attention to detail make these trousers ideal for both work and free time.

COMFORT The fabric made of 100% cotton and the stretch waistband have been specially designed to provide unparalleled convenience and comfort in all working situations.

CONVENIENCE Special attention to the choice and positions of the pockets results in slim yet extremely practical trousers.
