DISCOVER THE RSC RANGE!

THE EVOLUTION OF PERFECTION!

The **RSC range** has been designed to satisfy all professionals' requirements and ensure reliability as well as high operation performance. The innovative design, inspired by the racing world, provides these mobile roller cabs and trolleys with a captivating, unique style: the 7 colours and its finish make the RSC range synonymous with one-of-a-kind products in the market. The sturdy frameworks and the materials result in high quality and remarkable durability, thereby effectively supporting the daily work of industrial production departments, mechanics, car body repairers and general maintenance service providers. What is more, most RSC roller cabs are TÜV certified. This prestigious certification - which is the name for safety and guaranteed quality - is obtained upon successful completion of severe tests under the EK5/TA5 protocol.

RSC24

Mobile Roller cab

MODULAR

NEW RANGE OF WORKBENCHES

NEW!

Beta has launched the new range of workbenches, MODULAR, designed to make it possible for professionals to configure their workplaces from scratch, adapting them to their individual needs.

The range comes in a wide choice of preassembled combinations; alternatively, you can fully customize your configuration, including the worktops, legs, mobile roller cabs and tool chests, tool wall systems and accessories.

ROLLER CABS

WALL SYSTEM

LEGS

WORKTOP

The 75-cm-deep worktop means having a large, convenient, functional work surface available. It can be fitted with a vice, thereby allowing heavy-duty jobs to be carried out.

The new MODULAR range, designed according to the latest ergonomics studies, is enhanced by Beta's well-known sturdiness and quality, thereby standing out as an essential work partner.

BETA'S ICONIC WRENCH

A stylish, slim shape enhanced by a slender profile, lighter to the touch.

The strength, resilience and ergonomic design of the Beta wrench reach even higher values, to provide users with the best possible tool.

The manufacturing process is carried out in our factories in Sovico and Sulmona, on the basis of state-of-the-art automation technology and the best trained workers.

POWERFUL

Torque values more than doubled compared to the requirements to be satisfied under ISO 1711.

STRENGTH

Remarkable strength: in case of improper use, the wrench buckles, without breaking suddenly and dangerously.

ERGONOMIC

The offset ring has a 15 degree angle to protect the hand. The shape is obtained from a die; it is not bent later.

THE ORIGINAL ONE

When this wrench was launched, back in 1980, it was a revolution. Designed to work on high-resistance screws, it is the name for quick handling, accurate fit and flexible use. The hexagon T handle can be adjusted as required. The hexagon ends are designed to transmit the maximum possible torque to the screw. The rod length allows remarkable torques to be effortlessly applied to the screws. Ongoing production improvements have translated, for example, into sandblasted finishes and sharp-edged hexagon ends which allow a better fit onto any screws, including damaged ones. Laser marking results in a sturdier rod.

○ 2,5-3-4-5-6-8 mm

952
THE RELIABLE ONE

Reliable, precise pre-positioning is the secret for the success of this wrench. The articulated joint maintains its function over the years, no adjustment being required. Socket rotation angle: 50°. Can be used at 90° in fixed position. Sliding T-handle, can be stopped in the required position throughout its length. Triple size marking on head.

THE FUNCTIONAL, ERGONOMIC BETA EVOX SCREWDRIVER

Beta

IS ALSO ELECTRICAL NOW!

1/4

Life: you can tighten up in up to 1,000 screws with one charging cycle

Versatility: this item caters to all needs; it is supplied with a belt case, complete with 6 50-mm bits with mixed heads. In addition, it can be used with all bits with 1/4" hexagon drives.

Convenience: the reduced dimensions and front LEDs make it perfect for use in small, poorly lit spaces.

Flawless grip: it fits your hand and allows a firm, comfortable hold, during both electrical and manual operation, resulting in reduced hand and wrist fatigue.

Technical data:

- 3.7V 2300mAh lithium battery
- Maximum torque in electric mode: 1.2 Nm
- Over 1,000 screw fastenings at 1.2 Nm per charging cycle
- Speed: 250 rpm
- Outstanding static resistance (up to 12 Nm, manual tightening)
- Outstanding mechanical resistance
- 1/4" magnetic bit holder
- Compatible with all standardized bits
- Rechargeable via USB-C cable (included)
- USB-C port protected with screw cap
- Front ring LEDs for improved visibility of working area
- When charging, steady LEDs indicate that charging is complete
- Ergonomic nylon handle inspired by Evox screwdriver
- Built-in and sealed operation buttons
- Convenient belt pouch with bit pockets (6 mixed bits included)

BETA'S RANGE OF RATCHETS

NEW!

NEW DESIGN

**100%
MADE
By
Beta**

Ratchet with up to **72 teeth**:
take-up angle of 5° for jobs in small areas

Phosphated
square drive

Minimum head size

INNOVATIVE MATERIALS FOR TOP PERFORMANCE

Ergonomic
bi-material
handle

Hanging hole
on handle

- Designed and manufactured in the company's Italian-based factories, has been restyled.
- Hand pressing on head does not cause any reversal and allows for free lever return
- One-handed reversal

The versions with 1/2" and 3/4" square drives allow for reduced weight, thus resulting in a product synonymous with optimal handiness, superior ease of use as well as uncompromising sturdiness and performance.

TORQUE WRENCH ZERO-RESET

THE TORQUE WRENCH THAT DOES NOT REQUIRE RELEASING TENSION

Even if tension is not released, the number of cycles, durability and tightening accuracy as required by reference standards are guaranteed.

In order to confirm these parameters, Beta Utensili's Research & Development Department performed numerous durability tests at the in-house laboratories as at hundreds of end users.

This result has been obtained through:

- the use of the best-performing currently available materials;
- special heat treatments on interior parts.

The Zero-Reset torque wrench was entirely designed and developed in-house and is manufactured at Beta Utensili's factories in Italy, using 100% Italian-made parts.

ZERO-RESET TECHNOLOGY

Based on higher-performance materials and improved heat treatment of both the spring and the component parts of the adjustment system, the wrench no longer requires releasing tension after use.

EASY SETTINGS:

The graduated vernier scale allows minimum interval fractions to be set up (in tenths of Nm).

IMPROVED VISIBILITY:

Double graduation in Nm for clearer, simpler torque visibility.

666

ZERO-RESET click-type torque wrenches with reversible ratchets, for right-hand tightening, torque accuracy: $\pm 3\%$

Electronic torque wrench, torque and angle readout, with reversible ratchet and wireless data transmission, right-hand (accuracy: $\pm 2\%$) and left-hand (accuracy: $\pm 3\%$) tightening

UNI EN 26789 ISO 6789

1/4" 3/8" 1/2"

- Tightening types: torque, angle, torque + angle
- Dual measurement mode: peak hold and track
- Light indicators, an intermittent sound and tactile feedback inform user that preset torque or angle has been reached
- Last 999 peak torque and/or angle readings can be stored and displayed
- 9 "Preset" modes can be saved and preset
- Key safety lockout
- Wrench can be associated with a certain user via software
- Tightening data traceability. Software allows date and time, tool serial number, set tightening value and reached value to be stored and associated with user ID
- Nonslip bi-material handle
- Wrench + software in 9 languages
- Included: 3 AA - 1.5V batteries, wireless USB key and software USB key

- Bi-directional wireless data transmission, from wrench to software and vice versa, in mass a posteriori or in real time

- Customized data processing software with immediate, easy-to-read OK/NG result and real time display of charts

**Laser distance meter,
multipurpose, 40 m,
with positioning levels**

MEASUREMENTS:

- Single distance measurement
- Continuous measurement or minimal measurement

Functions:

- Addition/subtraction
- Area measurement
- Volume measurement
- Variable indirect measurement (Pythagorean measurement)
- Tilt measurement

Features:

- Auto power off
- Battery life: up to 5,000 measurements
- Soft cloth case (included)

TECHNICAL DATA:

- Measurement range: 0.05 ÷ 40 m (0.2in ÷ 131ft)
- Scale selection: m, in, ft
- Measurement accuracy: ±1.5 mm (± 0.06 in)
- Laser class: 2
- Max. storage: 99 units
- Batteries: AAA 2 x 1.5V

**POSITIONING
LEVELS**

Megohmmeter for high voltage insulating testing

Our megohmmeter is synonymous with technology and accuracy for really professional measurements. With an insulating capacity up to 100 GΩ at 1000V voltage, this instrument is ideal for professional, accurate measurements in all electrical applications. Particularly suitable for electric and hybrid cars.

Features:

- Insulation test up to 100 GΩ with 1000V voltage
- Large direct reading display, backlit
- Water protection: IP67
- Rubber terminal base for enhanced operating comfort
- Double insulated terminals CAT IV 600V, CAT III 1000V
- Ideal for electric and hybrid cars

PARTICULARLY SUITABLE FOR
ELECTRIC AND HYBRID CARS

	Measuring range	Basic accuracy
AC voltage:	10V - 600V	±(1.5% +5)
DC voltage:	0V - ±600V	±(1.5% +5)
Resistance:	0.01Ω - 200Ω	±(2% +5)
Insulation test @1000V:	0.01Ω - 100GΩ	±(1.5% +5)
Frequency:	1~1KHz	±(0.1% +3)

~~£ 296.00~~
£ 171.00

Industrial digital multimeter accurate and sturdy, in a 6-mm co-moulded shell, with antislip, shockproof outer rubber part

- Water protection IP67
- Protection up to 1000V
- Tested for accidental falls up to 2 m
- Protected inlets
- Autoranging
- Large direct reading display, backlit, blue
- K type temperature probe (included)
- Self-power down
- Rubber terminal base for enhanced operating comfort
- Double insulated terminals, 1000V, 1 m long
- Supplied in a soft case
- CAT IV 600V/ CAT III 1000V
- Actual effective value TRUE RMS

IP67

WIRELESS RECHARGEABLE ((••))

Based on improved LED technology, longer battery life, shorter charging time, painstaking attention to materials and ongoing search for innovative solutions, Beta's work lamps mean an outstanding combination of design, functionality and performance.

The lighting family comprises a wide range of products designed to satisfy all users' requirements, ranging from inspecting small pipes to lighting large working areas.

A comprehensive range designed to allow professionals to work at their best, in any sector and under any condition.

ELECTRICAL TOOLS

BM Group has been designing, manufacturing and distributing connecting parts and electrical installation products since 1958. Quality, safety and reliability have always been BM's key values. Combined with a passion for excellence, these values have allowed the company to develop – step by step – into a benchmark for the electrical material market. In 2018 BM Group was taken over by Beta Utensili. This section comprises an accurate selection of products under the brand name BM, supplementing Beta's product range.

THE RANGE OF REELS

Beta's wide, complete range of reels has been designed and developed to satisfy all professionals' requirements. High-resistance spring ensuring remarkable durability and fluidity in use. Shells made of thick polypropylene, for unique shock resistance. Rack device causing automatic cable rewind to stop, easy to disable, to allow continuous traction. Each reel is fitted with a 180° swivel wall-mount bracket and an additional bracket for quick connection and disconnection from the wall-mount support.

CABLE REEL

- Length of cable out of shell: 1 m
- Rack mechanism can be disabled to keep cable in traction
- Coiled cable length: 15 m

RED SEAL

Red acetic-reticulation silicone sealant, resistant to high temperatures, with convenient pressure dispenser (pressure pack)

- Enables permanent elastic sealing.
- Replaces preformed gaskets.
- The convenient dispenser allows easy (one-coated), accurate, uniform spreading of the product.
- Polymerizes by reacting with atmospheric moisture and forms an elastic, durable gasket.
- Ideal for oven and furnace doors, plates, heating systems, outlets, thermostats, pumps, heating pipes, engine parts that are not subject to high pressure and applications that require resistance to high temperatures.
- Perfectly adheres to most non-porous substrates, including glass, coated wood, ceramic and enamel.
- Not suitable for PE, PP, PC, PMMA, PTFE, soft plastics, neoprene and bituminous supports.
- Cannot be painted

200 ml

**WITHSTANDS TEMPERATURES

Portable induction heater

- Heats and loosens bolts, hubs and bearings without using flames.
- Allows any type of ferromagnetic metal to be heated.

Technical data:

- Input voltage: 230V AC, 50/60 Hz
- Input current: max. 7,5A
- Power: max. 1.75 kW

Benefits

- 1 Time saving: quick, extremely accurate heating
- 2 Fire safety: does not produce flames, maximum operator safety
- 3 Functional: can be used with one hand, and coils can be easily interchanged

Fields of Application:

- Automotive industry
- Industrial maintenance
- Aviation industry
- Naval industry
- Petrochemical industry

**MAXIMUM SAFETY
WITHOUT USING FLAMES**

Included:

Two front attachable coils,
Ø 19 and 26 mm,
for loosening nuts

One flat coil for heating
surfaces

One flexible coil,
800 mm long

480x370x130 mm

1895

Ultrasonic cleaning tank with special degas function

- Ultrasonic cleaning relies on fluid heating to effectively clean spare parts and metal pieces in general (carburetors, valves etc.)
- Digital display for temperature and cleaning time selection
- Two cleaning modes: "soft" and "normal"
- For normal cleaning, just use water at a temperature of 50/60 °C
- For more accurate cleaning, add non-foaming detergent solutions specific for ultrasonic tanks
- Using the degas mode speeds up air release throughout the tank, thereby improving ultrasonic cleaning efficiency

Electronic videoscope with flexible, rotating probe

- TFT LCD 5" screen
- Supports SD cards
- Video and image recording
- 4 LEDs
- Power supply via USB port (built-in battery)
- Rotating probe
- High resolution

Discover the videoscope, 961N, your versatile partner for all jobs! Based on the probe that can be rotated 360° and the double lit camera reaching the most inaccessible points has never been so easy. Defects and problems can be found easily and accurately. And with the new TFT LCD 5" display and outstanding resolution (1920x1080), you can enjoy sharp, bright images and videos, like never before. Choose the videoscope, 961N, for uncompromised quality.

THE REVOLUTIONARY IMPACT WRENCH THAT DOES NOT REQUIRE LUBRICATION

NEW!

The impact wrench, 19270LS, fully designed, developed and engineered by Beta Utensili, relies on the OIL-LESS system, a brand-new innovation in the pneumatic tool industry: it allows the impact wrench to operate without having to be periodically lubricated with oil, thus ensuring increased durability and high performance.

The painstakingly studied assembly, micrometer alignment of the interior parts and use of innovative first-rate materials result in a reduced number of failures, for lubrication-free lifetime use.

PATENT PENDING

The OIL-LESS impact wrench stands out for high **TORQUE TRANSMISSION** – that is, 1750 Nm –, which makes it ideal for any application.

RENEGADE

NEW!

THE NEW SAFETY FOOTWEAR RANGE

Renegade, has been designed to provide uncompromising safety and style.

The range, which comprises 6 models in unique colours and materials, perfectly suits those interested in standing out in any working environment.

Renegade relies on a design inspired by latest generation sports shoes, superior cushioning and remarkable support to provide comfort all day long.

INNOVATIVE DESIGN

HIGHLY BREATHABLE

EVA OUTSOLE WITH DURABLE NITRILE RUBBER TREAD WIDE FIT

THE WIDE BODY

The wide body – 11 – ensures smooth, comfortable walks, without compressing the foot.

QUICK LACING SYSTEM

Model 7340VA is Beta's first shoe fitted with a quick lacing system.

BASED ON A BOLD, UNCONVENTIONAL STYLE,
Renegade is an ideal pick for modern professionals.

FitEvolution

Seven uniquely designed models, available in several colours and materials, ranging from mesh to microfibre, to satisfy the most demanding users' requirements.

THE PATENTED SYSTEM BETA FIT4YOU

After several years of painstaking studying and designing, we developed the patented system, **FIT 4 YOU**. This state-of-the-art penetration-proof insole pressing process allows three different **ETPU** inserts – each with different densities – to be combined, to provide three levels of comfort, thus satisfying every user's requirements.

ETPU Inserts

ETPU is the core of the FIT 4 YOU system, ensuring a cushioning effect and energy return. Based on three provided inserts varying in density and colour, it allows both softness and support to be customized in the shoe, according to weight, height and personal requirements. This groundbreaking technology ensures optimal comfort while moving as well as during static breaks, thereby resulting in reduced joint stress and fatigue

The patented system, **FIT 4 YOU**, is based on **3 provided ETPU** inserts, varying in density and colour, to allow the user to customize the shoe according to weight, height and personal usage requirements.

- Composite toe cap
- Composite fibre penetration-proof insole
- 3 ETPU inserts, with 3 different densities, for a customized shoe
- Heel stability support and traditional lacing.
- Dual-density polyurethane outsole
