| 009660814 | 966BA/V80 | 430 | 48 | 250÷400 | 1520 |

Di ottone antiscintille in lega beta di Beta Strumenti S.p.A. non devono essere usati in contatto o in presenza di scintille o con apparecchiature che funzionano con scintille.

L'ottone può reagire con il rame dello strumento per formare un acido esplosivo.

Beta spark-proof tools cannot be used in contact with acetylene or with devices that function on acetylene.

Acetylene can react with the copper of the tool and form copper acetylide, a powerful and very dangerous explosive.
